sales@yeavoice.com

Keeping an eye on your business just got a lot easier.

VsaaS "Video Surveillance as a Service" isn't complicated or expensive. When leveraging the latest technology of IP cameras, redundant cloud storage, live streaming with on-demand multi-device access, any business whether large or small can benefit from **YeaVoice** VSaaS.

Multi-storage plans to fit any business and budget

24/7/365 mobile apps & desktop access - live viewing

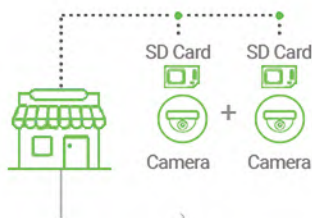

Multi-camera and connectivity
WIFI - POE
PTZ - In/Outdoor

Single source for installation, billing and support services

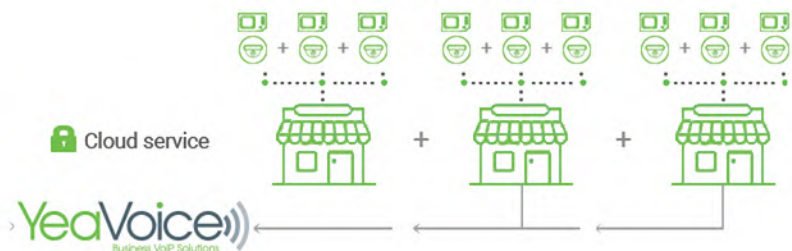

From one camera, one location to a multi-camera, multi-site deployment, **YeaVoice's** professional approach ensures your business VSaaS requirements are met and delivered at the highest possible level.

Single location

Multiple locations

Unlimited surveillance sites, no matter the location

Any device

Access to surveillance cameras, no matter the device

Laptop

Tablet

Phone

Video wall

"Adding YeaVoice's VSaaS delivered peace of mind to me knowing with any event 24/7, I am just a click away from a live view of my business."
